1 BACKGROUND

1.1 The South African Social Security Agency (SASSA) has been established in terms of the South African Social Security Agency Act, 2004 (Act No.9 of 2004). 2 INTRODUCTION

- 2.1 Social Relief of Distress (SRD) is a programme intended for meeting the basic needs of indigent persons by means of rendering temporary and immediate material assistance in response to a crisis situation.
- 2.2 The Disaster Management Act 2002 (Act No. 57 of 2002) defines a disaster as a progressive or sudden, widespread or localized, natural or human-caused occurrence which causes or threatens to cause- (i) death, injury or disease; (ii) damage to property, infrastructure or the environment; and / or iii) disruption of the life of a community; and is of a magnitude that exceeds the ability of those affected by the disaster to cope with its effects using only their own resources.
- 2.3 Disasters occur when an unforeseen event impacts on vulnerable structures, areas, services, households or a community to the extent that available resources cannot cope with the problem effectively. An incident as guided by SRD policy refers to disastrous events, where the area is not declared a disaster area.
- 2.4 The community and/or the individual require support and assistance to cope with the after-effects of disasters and/or incidents. The importance of a rapid and effective response in the event of a disaster or incident cannot be underestimated.

- 2.5 The responsibility of SASSA is to assist in the provision of immediate access to basic necessities for those severely affected by disasters and/or incidents, in consultation with other role players involved in the response effort.
- 2.6 A disaster or incident may affect only one family or person (for example a single house burns down) or an entire community (floods, fire, wind, tornados, etc.).
- 2.7 The response for an individual affected by a disaster will differ from a response to a community affected by a disaster. However, in all cases, SASSA's preparedness and responsiveness is of importance. Child headed households, female headed households, people with special needs and the elderly are particularly vulnerable during such times.
