SASSA have the following instances running on VM's on Oracle Private Cloud Appliances at both the primary and secondary hosting sites:

- 1. Prod environment
- 2. QA environment
- 3. Training environment
- 4. Dev environment
- 5. Test environment
- 6. DR environment
- 7. IDM environment

**Primary Site** 

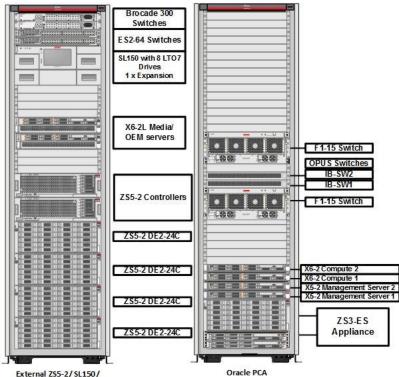

There might be more instances depending on the projects. We are also planning to integrate the EBS system with Oracle's IAM solution that is already installed but not yet implemented

Brocade 300 Switches E S2-64 Switches 1000 SL150 with 8 LTO8 Drives 3 x Expansion -100 X6-2L Media/OEM 1. 18 servers

Brocade Switches/ES2-64 Network Switches/X6-2L Media/OEM Servers

## Secondary Site
